## Charlotte Convention.

We received by telegraph, this forenoon, a dispatch from Columbia, S. C., stating that "Judge Ellis is the nominee." We anticipated this result from the dispatch we received yesterday afternoon, which we publish today. We have no further tidings from the Convention. We suppose that which we have received is all sufficient for the occasion. We, at least, hail the nomination with pleasure, and accordingly place the name of John W. ELLIS at our mast-head, as a candidate for Governor, to be voted for by the freemen of North Carolina at the election in August next. That he will bear the standard of Democracy triumphantly through, we hardly think and passed a unanimous vote of thanks, which time and any person has the least doubt. We know his nomination will be received by the Democracy of this section with delight. We forbear saying more at present .-Our editor will probably be home this evening, and give a full report of the doings of the Convention to-morrow

P. S. In addition to the dispatch received and announced in the above paragraph, we have been politely furnished, just as we go to press, by Mr. Clancy, chief operator of the Telegraph Company here, with the vote | Nutt, were appointed Secretaries. on the nomination, as follows:

Ellis received the nomination on the first ballot, by four thousand four hundred and fifty-one majority .-Holden's vote was twenty-one thousand five hundred and ninety-four .- Daily Journal, 16th inst.

## The Charlotte Convention.

Having left Charlotte before the Secretaries had written out the proceedings of the Democratic State Convention which assembled there on the 14th inst., we are unable to lay the official report before our readers in our issue of to-day, but feel confident of having them in time for Monday's Journal.

The result of the deliberations of the convention, so far as the nomination is concerned, has already been announced. Hon. John W. Ellis is the nominee of the Democratic party of North Carolina, for the office of Governor. This nomination, we feel certain, will give universal satisfaction to the party throughout the State; and this without disparagement of the claims of another prominent gentleman, or disregard of the feelings of the practicable moment many warm friends of that other gentleman, who would gladly have seen him nominated, but will now give to Judge Ellis a warm and enthusiastic support. No less of Mr. Holden gave carnest of what may be expected Kidder. from them in the canvass, by the graceful manner in that the action of the Convention might be unanimous, as it was immediately made. The friends of the successful candidate for the nomination were pleased, no doubt, and those of the unsuccessful one were somewhat disappointed, as was natural, but there was no show of exultation on one hand or of chagrin on the other. Indeed, taking into consideration the warm interest felt by the friends of both parties, the good humor and kind feel- made the following report: ing which marked every step in the proceedings was very striking. If any calculations were made, or any hopes of the opposition based upon dissensions in the

Convention which assembled this week in Charlotte, was practicable plan that suggests itself, under existing cirthe largest, and, in many respects, the most important assemblage of the kind every held in North Carolina, exceeding all previous Conventions of any party in the number of delegates in attendance as well as in the number of counties represented by the active and prominent Democrats of the different localities. Never before, on thereon to be paid and the notes renewable every 90 Mr. English, of Indiana, as chairman, one Lecompton carting mud and oyster shells up the alley, with the cat any occasion have the people of the State met together days, according to the custom of the banks, but the so generally. The East and the West, the North and principal thereof to be paid in two years from the rethe South, the extremities and the centre had their representatives at Charlotte, and everything seemed to work together to make their association pleasant, and to an indemnity shall be furnished such endorsers by the leave kindly recollections of their intercourse with each other. We really think that much good to the State will arise from this very pleasant meeting of so many citizens | Gass Coal and Transportation Company, the Farmsville

from so many different sections.

The Convention met in the Court House at Charlotte, and was temporarily organized by calling Captain John Walker, of Mecklenburg county, to the chair, and appointing temporary Secretaries. The temporary President stated the objects of the Convention, and exhorted appointed by the chair, whose duty it shall be to proto harmony and conciliation. His remarks were welltimed and were received with applause.

In order to provide for the permanent organization of the Convention, a committee of two from each district was appointed by the Chair, at the suggestion of the different districts, made through the chairman of each chairman of the third district, and John D. Taylor, Esq., ner, N. N. Nixon, and John McRae. of Brunswick county, and W. McL. McKoy, Esq., of Cumberland, as our committee-men on organization.

The report was received and adopted without opposition. The report seemed to meet the wishes of the Democracy of all sections, and here, as a member of that Committee, we may be permitted to say that the absence of sectional feeling between the representatives of the different portions of the State was most remarkable. It was an omen of good, not only to the party but to the State .-The Committee from this district consisted of W. McL. McKov, of Cumberland, Wm. J. Houston, of Duplin, and James Fulton, of New Hanover.

A resolution urging upon the attention of Congress, the claims of the Deep River Mining region as the site for the proposed National Foundry was offered by Mr. McKoy, of Cumberland, and adopted enthusiastically. It was not passed as a party resolution, but as the expression of the views of citizens of North Carolina assembled together from every portion of the State.

On Thursday the Convention assembled at 9 o'clock, P. M., and after the adoption of some resolutions, offered by Mr. Cox, of Edgecombe, thanking our Democratic Senators and Representaives, for their course on the Kansas question, the business of nominating a candidate for Governor was gone into. Some discussion arose rule was adopted. Several gentlemen participated in this discussion, some in favor of the two-thirds rule, and some in favour of the majority rule. Mr. Cantwell, of Wake, spoke at some length, and with decided force and

ability, in favour of the two-thirds rule. Previous to the voting being commenced, a letter was read from W. W. Avery, Esq., of Burke, declining to be considered a candidate for the nomination.
